

fraxel®
re:store
DUAL

Fraxel re:store™ DUAL treats fine lines, hyperpigmentation, enlarged pores and textural issues like acne scarring, using Fraxel re:store™ DUAL wavelength laser. It stimulates the production of new collagen, which improves the skin's tone and texture, restores elasticity and promotes healthy tissue with minimal discomfort and downtime. We recommend a total of 5 treatments for the best results.

Packages of 3 or more include the SkinCeuticals® Post Procedure System and the SkinCeuticals® Gentle Cleanser.
